Navim scheduled to Commanders of all ships.

As a result of storms the amount of floating mines in the Baltic has increased. It is imperative that all precautionary measures be taken - a strict watch of the horizon be kept. Position of floating mines to be reported instantly.

Sea commanders of all ships.

The number of floating mines has increased due to the stormy weather conditions experience in the fall and winter. I suggest that all captains of vessels keep a lookout. In the event of mines being spotted, timely information required.
